

Voaara

Dissolving the boundaries between indoors and out, Voaara presents true barefoot luxury on Madagascar's Sainte-Marie island. Bungalows built from driftwood and raffia palm, with lime-washed walls and vaulted thatched roofs, sit within 100 acres of protected jungle bordering a private white-sand beach. Days unfold around snorkeling, whale watching, and dining that draws on Mediterranean, Asian, and Madagascan influences. — [see more](#)
