

SOIL Nagatoyumoto

SOIL Nagatoyumoto revitalizes a historic hot spring town with 600+ years of bathing tradition into a modern hub where nature, heritage, and community converge. Set along the Otozure River, in Nagato Yumoto Onsen, the hotel presents a sauna with panoramic river views and immersive activities rooted in culture and the natural landscape. The wood-fired restaurant TARU and a collaborative shop highlight seasonal local produce and craftsmanship, while experiences with farmers, potters, and artisans reveal the authentic rhythm of place. — [see more](#)
