

Matsumoto Jujo

In addition to being a one-of-a-kind hotel, Matsumoto Jujo is a social hub set in two structures—one a carefully updated inn dating to 1686, the other a new family-friendly retreat. It brings together onsen baths and a bookstore, restaurant, bar, bakery, and shop, all within a single framework. In short, the hotel magically integrates bathing, reading, and dining, to create the perfect setting to experience architecture, hospitality, and local culture. — [see more](#)
