

S Hotel

Philippe Starck celebrates love at S Hotel in Taipei's center, where a sensorial experience full of art, culture, and creativity awaits, with a dash of humor. A tribute to the hotelier's love, an oversized strand of pearls adorn the façade of the hotel. Inside, an atmosphere of love and joy is born from a unique mix of contemporary styles, local art, and aboriginal crafts. Swirling staircases, two-story bookshelves, fireplaces with stacked logs, and eclectic collections of retro and Philippe Starck-designed pieces are incorporated throughout.
