

Ham Yard Hotel

A stylish restaurant and bar, chic interiors, a state-of-the-art theater, shops, a courtyard, and a 1950s bowling alley make up this inspiring urban village. “The Devil is in the details. The height and shape of a headboard, the detail on a valance and the trims used on soft furnishings—it can be the smallest thing that captures the imagination in a room.” says Kemp, offering an insight into her magic. The floor-to-ceiling Crittal windows allow plenty of natural light, highlighting the striking furnishings and Kemp’s eclectic collection of art.
