

Hotel Sevilla

In the heart of Mérida's historic Centro, Hotel Sevilla reimagines a 16th-century colonial casona as a refined sanctuary where past and present coexist in elegant balance. Carefully restored façades, stone floors, and verdant courtyards sit alongside bold concrete interventions, a sculptural pool, and minimalist interiors that honor Yucatán's architectural legacy. Located steps from Plaza Grande and cultural landmarks, the hotel invites guests to experience Mérida's rich heritage through curated spaces, thoughtful design, local cuisine, and ancestral wellness rituals. — [see more](#)
