

Hotel Belmar

Perched on the edge of Monteverde’s cloud forest, Hotel Belmar is a family-owned sanctuary where Costa Rican hospitality, sustainability, and creativity converge. Guests are welcomed into intimate spaces inspired by Alpine chalets that blend architectural elegance with nature, from forest-facing rooms to curated gardens and panoramic views of the Nicoya Gulf. The on-site farm-to-table restaurant and craft brewery, along with an Artist Residency Program, create a deeply rooted, transformative, and authentic stay. — [see more](#)
