

Mamula Island

Mamula Island is a restored 19th-century fort surrounded by the sea and is located in a UNESCO world heritage site, in Montenegro's Boka Bay. The hotel presents a holistic design to create a modern reinterpretation of a retreat—several outdoor spaces, three pools and multiple culinary options including an all-day dining restaurant, Kamena fine-dining restaurant and Pinea Bar—an intimate speakeasy. Guests can explore their own creativity through workshops and classes at the Atelier Mamula, as the hotel works closely with the University of Fine Arts in Centinje. — [see more](#)
